

Two-Zone System

LZP-2

Designed for use with standard, single-speed heating and cooling equipment

HOME COMFORT SYSTEMS
Innovation never felt so good.™

Lennox LZP-2 Zoning System

Innovation never felt so good.™

Designed to adapt to your comfort level and lifestyle needs

Divides your home into two comfort zones, giving you more flexibility and control

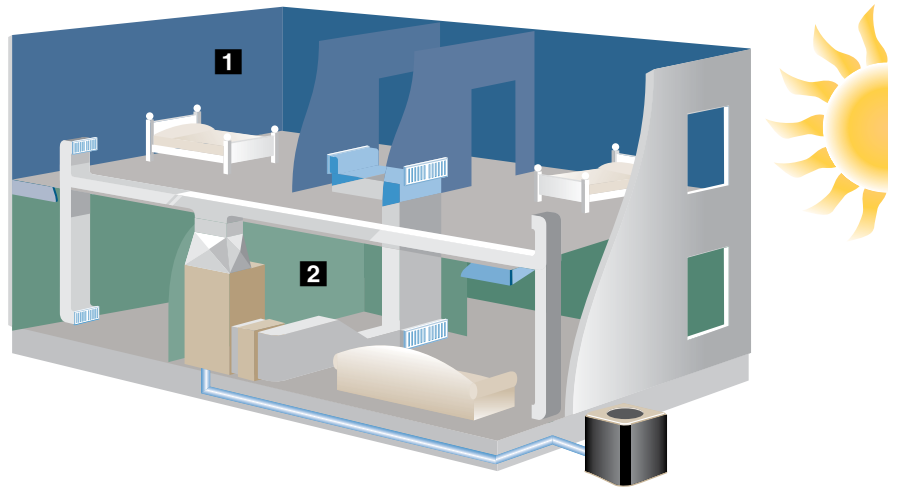

Provides precise comfort throughout the home, throughout the year

Can save you hundreds of dollars in energy costs over the life of the system

Lennox' LZP-2 zoning system enhances your comfort by allowing you to control the flow of heated and cooled air throughout your home. Say you have an upstairs floor that's always too hot. With the LZP-2, you could reduce heating in that area, while maintaining optimal comfort in the other zone.

TWO-ZONE HEATING AND COOLING— YEAR-ROUND COMFORT AND ENERGY SAVINGS

The LZP-2 zoning system meets your specific comfort needs in one zone, without affecting the other. This not only maximizes your comfort—it also saves you money, year after year.

Zone 1 – Sleeping areas
Zone 2 – Living areas

WARRANTY

2-year limited warranty.*

Comfort Lets you divide your home any way you want

As illustrated by the example shown on page 2, this system gives you the option to control comfort in your home.**

Efficiency Reduces your energy costs by up to 35%, when used with a programmable thermostat***

With the LZP-2 zoning system, you no longer have to pay to heat or cool areas of your home you rarely use.

Dimensions	HxWxD (in.)
LZP-2	5 x 10-1/2 x 2

Component	How It Works	How It Helps
Solid-State Control Panel	Divides your home into two separate comfort zones, allowing you to adjust temperature and airflow according to your lifestyle needs	Gives you greater control over your energy costs and comfort
Zone Dampers**	Regulate airflow and control temperature consistently throughout your home	Helps eliminate hot and cold spots
Electronic Air Sensor	Continually monitors temperature of the air leaving the zone and automatically adjusts control panel settings to ensure zone demands are satisfied	Ensures accuracy and hassle-free operation

Feature	How It Works	How It Helps
Auto Changeover	Maintains comfort by automatically alternating between heating and cooling during transitional weather	Delivers enhanced comfort and efficiency
Permanent Program Memory	Maintains zone settings in the event of a power loss	Provides an extra measure of reliability
Built-In Time Delay	Keeps your HVAC system from short-cycling (constantly stopping and restarting), so it can run at peak efficiency	Delivers enhanced comfort and efficiency

*Applies to residential applications only.

**Not designed for use with variable speed gas furnace or electromechanical thermostats. Zone control panel must be installed in conditioned airspace.

***Department of Energy statistics.

CUSTOMIZE YOUR COMFORT

Lennox® heating, cooling and indoor air quality products are designed to provide efficient, economical comfort—not only as individual units, but also together as an integrated system. This combined network of products delivers on every comfort count, from consistent temperatures and balanced humidity to improved indoor air quality. Lennox also offers a line of residential generators, which provide safe, reliable standby power in the event of outages.

DEALERS YOU CAN COUNT ON

Choosing the right dealer for your home's heating, cooling and air quality needs is every bit as important as choosing the right brand. We think you'll agree our independent dealers are a big reason you can count on quality customer service whenever you call. Your Lennox dealer's dedication to quality shows in his knowledge, training and expertise in designing the right system for your home, installing it properly and keeping it running perfectly for many years to come.
